## AFTER COVID

# DEMAND A NEW NORMAL

Users of this motion may wish to adapt to suit their organisation's format for motions and to update if necessary

## NOTES:

The UK has one of the worst Covid-19 death rates in the world.

The Legatum Institute found that 700,000 people have been driven into poverty because of the covid crisis.

According to a recent BMA report: "the NHS in England has been forced down a route of increased marketisation and privatisation – and the Government has accelerated its aggressive outsourcing to private firms during the COVID-19 pandemic".

The 'Police, Crime, Sentencing and Courts Bill' amongst other things allow police to place conditions on protests as a response to "the noise generated by persons taking part". And "serious annoyance" or "serious inconvenience" are liable to be imprisoned for up to ten years.

## BELIEVES:

This government's handling of the Covid-19 crisis has been disastrous and needlessly cost many lives.

The Covid-19 crisis has disproportionately affected disabled people and those from the Black and Asian community.

Corruption is now rife within this Tory government with billions of pounds of public money handed to companies with direct links to government politicians.

A crisis has been created in our NHS through years of underfunding and privatisation, the proposed 1% pay rise to NHS workers is an insult.

The marketisation of our schools is harming our children's education and high university fees create unacceptable debt for students.

Millions are now in jobs that are underpaid, unsafe and insecure.

The 'Police, Crime, Sentencing and Courts Bill' is a dangerous attack on our fundamental right to protest
